

THE PERTH MINT
AUSTRALIA

Your reliable
refining partner

WE RESPECT THE TRADITIONAL

OWNERS OF THE LAND ON WHICH

WE OPERATE AND FROM WHICH

GOLD AND SILVER IS EXTRACTED.

WE PAY OUR RESPECTS TO THEIR

ELDERS PAST, PRESENT AND EMERGING.

Renowned heritage, unmatched precision

We have been a trusted partner in the gold and silver mining industry for more than 120 years.

Our long-standing reputation and scale makes us one of Australia's most reliable refineries with a real commitment to responsible sourcing and sustainable production.

We are dedicated to creating an exceptional customer experience, with a support team to guide you through each step of the process and ensure our service fits your business needs.

For your peace of mind, your metal doré will be shipped to The Perth Mint Refinery under secure transport before undergoing a precise assay process and then refined to a high standard of product which is underwritten by our WA Government Guarantee.

Meeting your mining producer needs

At The Perth Mint, our refining business has been built on long-term relationships with Australia's largest mining companies. Our overriding commitment is to provide our partners with reliable and efficient results, supported by a secure and government-backed refinery.

WHY CHOOSE THE PERTH MINT REFINERY

- **Held to the highest standards.** We are accredited by all five of the world's major gold exchanges including LBMA, The Chicago Mercantile Exchange (CME), Shanghai Gold Exchange (SGE), Osaka Exchange, Ltd (OSE), and Dubai Multi Commodities Centre (DMCC).
- **Longstanding reputation and scale.** With a refining capacity of 800 tonnes of gold and 1,000 tonnes of silver each year, our refinery is among the most established refining facilities in the world.
- **Safe and secure.** As one of Australia's most trusted refining options, we unconditionally guarantee your out-turn payment. For increased confidence, we are additionally backed by a unique government guarantee from a highly rated (S&P AAA) sovereign authority.
- **Unmatched precision.** Our advanced precious metals assay laboratory provides a rapid turnaround time and accuracy within 0.001% for gold analysis.

MAXIMISING YOUR RETURNS, MINIMISING YOUR RISK

Competitive, sustainable rates and fast payments that exceed industry expectations are direct benefits of The Perth Mint's economies of scale, technical superiority, financial strength and extensive industry connections.

Passion for assay precision

With one of the most advanced and best equipped precious metals assay laboratories in the southern hemisphere, our team work to guarantee complete assay accuracy.

Our accuracy in gold analysis has been tested to be within 0.001% for gold by the LBMA, the world's premier regulatory body. Fully compliant with Australian Standards, our assay process has been perfected over many years, offering you complete trust in our guarantee of assay integrity.

Add the fact that our unique government guarantee fully protects your metal, it is easy to see why we are trusted as one of the lowest risk refineries in the world.

ASSAY METHODS

Using some of the most advanced techniques available, we can guarantee assay integrity.

Immersion dip sampling

The technique to extract representative samples from well mixed metal prior to analysis.

XRF screening technique

Preliminary screening technique to determine the gold, silver and base metal.

Bullion fire assay

Method used to separate precious metals from base metals.

Spark emission technology

Technique to determine impurities and measure purity of refined gold and silver.

Inductively Coupled Plasma (ICP)

A solution analysis technique to determine elemental impurities in samples.

Dedicated experts

MINE TO MARKET KNOWLEDGE

Our skilled and diverse team offer invaluable knowledge and experience of the entire precious metals process – from mine to market. Ranging from laboratory technicians and chemists, to a dedicated support team, they ensure you'll enjoy a seamless process – from delivery of your metal through to payment.

Treasury services

Our treasury team comprises of experienced traders and sales and logistics specialists, who have long-standing relationships with leading industry professionals. This means a comprehensive range of value-added solutions, such as:

- Purchase of gold and silver at competitive prices by virtue of access to vast global liquidity.
- Direct distribution of physical gold to global markets.
- Location swaps.

Customer focused with a track record of working hand in hand with our producer partners, our treasury specialists help you maximise your returns with minimal risk.

Our dedication and
commitment to being your
reliable refining partner is
at the core of our business.
